The King's CE School Extra-Curricular Programme 2020/21

The King's Top 5 Extra-Curricular Commitments

The King's CE School aims to provide good quality, high impact extra-curricular activities for its pupils. To support this important work extra-curricular leaders use the following Top 5 Extra-Curricular guidelines when planning and delivering their sessions.

- **Quality** Our extra-curricular sessions are planned and led by experienced members of staff who are actively involved in the delivery of the activity. Pupils are not left alone.
- **Impact** Extra-curricular activities are designed to further develop and enhance the skills pupils are developing in the classroom.
- **Engagement** Our teachers aim to engage all pupils in our extra-curricular programme and fully take part in actively recruiting pupils of all abilities to participate in these sessions.
- **Attendance** Pupils' attendance at extra-curricular activities is always recorded using Class Charts. This helps to support the school's work to monitor the engagement of all pupils; particularly pupils who are in receipt of the Pupil Premium Grant.
- **Celebrate** Teachers ensure that pupils' extra-curricular achievements are regularly shared and celebrated through our internal and external media processes. This supports our partnership with parents and community.
